WATER RATE APPLICATION CHECKLIST

Please use the following checklist to ensure that all necessary attachments are included in the application. Provide an explanation for any omitted item. Please include **13 copies** of this application in your application submission. Also, please include **three packets** with copies of checklist items 5-11.

ORIGINAL APPLICATION PACKAGE ITEMS

- ☒ 1. The Arizona Department of Environmental Quality ("ADEQ") compliance status report (use the Maricopa County request if in Maricopa County). Use the appropriate request form in the appendix at the end of this application to obtain the status report. A separate form should be used for each public water system, as defined by ADEQ, which is part of this application.
- ☒ 2. The Arizona Department of Revenue ("ADOR") certificate of compliance letter of good standing. The form is available online at http://www.azdor.gov/ADOR_Forms/20-29/25-0002_fillable.pdf
- ☒ 3. The utility's most recent ADEQ annual sampling fee invoice for its Monitoring Assistance Program.
- ☒ 4. Invoices for each plant asset purchase in excess of \$150 for the Test Year, as well as all of the intervening years since the utility's prior Test Year as itemized on page 12.

Please provide 3 packets with copies of the following information to support entries on the Income Statement on page 19:

- ☐ 5. A breakdown by name, position, salary, and duties for the Salaries and Wages expense. (Acct. 601)
no employees
- ☒ 6. Invoices for Purchased Water during the Test Year. (Acct. 610)
- ☒ 7. Invoices for Purchased Power during the Test Year. (Acct. 615)
- ☒ 8. Invoices for Repairs and Maintenance in excess of \$150 incurred during the Test Year. (Acct. 620)
- ☒ 9. Invoices for Outside Services in excess of \$150 incurred during the Test Year. (Acct. 630)
- ☒ 10. Invoices for Water Testing during the Test Year (Acct. 635)
- ☐ 11. Statements from the county for Property Tax expenses incurred during the Test Year. (Acct. 408.11)
Tax Year 2009 is the first year that ADOR has assessed property tax.

GENERAL INSTRUCTIONS

Processing the request for a rate adjustment requires completion of ALL PARTS of this application. Complete the Narrative Description of the Application for Rate Adjustment on pages 3, 4 and 5, as well as the statements on pages 6 and 7. Read the accompanying instructions and fill in the entries on pages 8 through 31. Dollar amounts should be rounded to the nearest dollar. NO ENTRY SHOULD BE LEFT BLANK. If an amount is zero, enter a zero. **Any application that is found to be insufficient will not be processed until the deficiencies are corrected per A.A.C. R14-2-103.B.7.**

A completed application also **requires** notification of customers of the rate request. The format of the customer notification letter is provided on page 32 of this application. Use the language and form of this letter in notifying customers. The customer notification **must** be provided to customers on the same date as the rate application is filed. A copy of this notice, together with a **notarized** cover letter stating the method of customer notification and the date the notification was sent to the customers, **must** accompany the application form.

Please provide any supplementary information the Company believes will assist in the evaluation of the rate request. For example, if expense items are substantially different from the latest annual report filed with the Commission, or if significant plant additions have been made since the prior rate increase, attach supporting explanations for those changes to the application. Clearly label any attachments and staple them to the application.

Selection of a Test Year for the utility is an important part of the application. A Test Year older than the year reflected in the most current Annual Report filed with the Utilities Division is usually considered outdated. Questions regarding the selection of a Test Year should be addressed to Staff at (602) 542-4251.

Please contact the Arizona Department of Environmental Quality (and/or its authorized county agencies) and request a compliance status report. Submit a copy of this report as part of this filing. Please refer to the appendix of this application form.

Please contact the Arizona Department of Revenue and request a certificate of compliance letter of good standing regarding taxes. Submit a copy of this compliance certificate.

After you have included all the required items from the checklist on the previous page, please submit the **original and fifteen copies** of the completed application with a cover sheet to:

Arizona Corporation Commission
Docket Control Center
1200 West Washington Street
Phoenix, Arizona 85007

Also, please include **three packets** with copies of checklist items 5-11 in your application filing.

NARRATIVE DESCRIPTION OF APPLICATION FOR RATE ADJUSTMENT

White Horse Ranch Owners Association's (WHROA) current rates and charges were authorized by the Commission in Decision No. 67103 dated July 9, 2004. Decision No. 67103 required WHROA to file a rate application no later than September 30, 2009. This application is being made in order to comply with Decision No. 67103. The following provides the documentation required on Page 3 and Page 4 of the Commission standard Rate Application for companies with annual gross operating revenues of less than \$250,000.

- ☒ Changes in current, compared to past operations, that necessitate the rate adjustment

WHROA relies almost exclusively on outside contractors to operate and maintain its water system. Over time the cost of employing outside contractors has increased. Since current rates were authorized, additional revenue from customer growth has tended to offset the increases in cost. However, in recent years growth has diminished, causing costs to increase relative to revenues. Lastly, due to diminished well capacity, WHROA has been forced to haul water in 2009, significantly increasing operating costs.

- ☒ Descriptions and/or calculations of adjustments made to amounts that are included in this application that are different than amounts recorded in your books/ledgers (pro forma adjustments)

Rate Base and Income Statement adjustments have been prepared for this Application.

The Rate Base adjustments are detailed on attached Schedules B-1 and B-2. Supporting Schedules B-2.1, B-2.2, B-2.3, B-2.4 and B-2.5 are provided to detail and document the Rate Base adjustments.

The Income Statement adjustments are detailed on attached Schedules C-1 and C-2.

- ☒ Significant factors influencing your revenues, expenses and/or rate base.

WHROA's two operating wells have experienced severe declines in production capacity requiring substantial capital expenditures and causing substantially increases in purchased water expense.

Due to severely decreased pumping capacity, Well No. 1 was rehabilitated in 2006. The sustained pumping capacity of Well No. 1 has decreased from approximately 30 gallons per minute when constructed to between 12 and 16 gallons per minute currently.

Due to severely decreased pumping capacity, Well No. 2 was rehabilitated in 2009. The sustained pumping capacity of Well No. 2 has decreased from approximately 25 gallons per minute when constructed to approximately 7 gallons per minute currently.

WHROA has recently completed drilling of two new wells, Well No. 3 and Well No. 4. Equipping of the wells is currently underway. The two wells are projected to have a combined capacity of approximately 7 gallons per minute.

Due to the reduced production capacity of WHROA's wells, WHROA has been required to haul water during calendar year 2009 at substantial cost. It is expected that the well rehabilitations combined with new capacity from wells No. 3 and No. 4 will reduce, but not eliminate, the need to haul water in 2010.

- ☒ Anticipated growth/decline in customers expected in the next two years, the amount of anticipated construction to serve those customers, and how financed; the type of customers served by the utility, e.g. residential, irrigation, small businesses, large commercial, etc.

WHROA does not expect to any customer growth over the next two years.

- ☒ Anticipated construction

WHROA will continue to evaluate its well capacity relative to demands. WHROA expects to construct additional wells and/or additional storage capacity in 2010 and 2011 to reduce/eliminate the need to haul water. WHROA expects to finance the construction using funds previously collected from hookup fees.

- ☒ Efforts made to encourage conservation of water through proposed rate design or through other means

WHROA has proposed a four tier rate structure to replace the current three tier rate structure. The fourth tier is modeled on nearby City of Prescott rates, which use a high cost fourth tier to promote maximum conservation by customers. In addition to rate design, WHROA consistently communicates the need to conserve water to its members at monthly HOA meetings.

AFFILIATE RELATIONSHIP

Please indicate a **yes** or **no** answer to the questions below and provide an explanation where necessary.

A parent-subsidary relationship, or affiliation, with another entity includes Corporations, Partnerships, Sole Proprietorship, Limited Liability Companies (LLCs), as well as common ownership of a water company and another entity, such as a development company or wastewater company.

Are any assets owned jointly with any affiliated or subsidiary entities?

☐ YES ☒ NO

If **Yes**, please provide a description of each jointly owned asset, it's cost, and the percentage of the asset owned by the utility. (Please note the amounts reported on pages 12 and 15 should only include the percentage of plant owned by the utility.)

Were any of the assets constructed or acquired from an affiliated or subsidiary entity?

☐ YES ☒ NO

If **Yes**, please identify the affiliated entity, the relationship with the utility, and a detailed listing of all transactions reflected in the Plant accounts. Also include detail for other balance sheet accounts, such as Advances, Contributions in Aid of Construction, inter-company payables and receivables, as well as affiliated revenues and expenses from the Company's Income Statement.

STATEMENTS IN SUPPORT OF RATE REQUEST

CURRENT AND PROPOSED RATES AND CHARGES INSTRUCTIONS

Complete the schedules on pages 9 and 11 showing rates and charges currently in effect, and those proposed by the Company. Specify the customer class or classes (i.e., residential, commercial, industrial, irrigation, all, or other classes) in the space provided.

MONTHLY CHARGE:

Enter the monthly minimum (or service) charge and gallons included in the minimum for each meter size. For example, enter "\$12.00 for zero gallons." Propose a monthly minimum (or service) charge for every meter size listed on page 9. Also, enter the commodity (or excess) charge for the gallonage the customer will be charged for gallons used over those included in the minimum charge. For example, enter "\$1.25 per 1,000 gallons." If excess charges vary with gallonage used, enter the rates and gallons covered in each tier of consumption in the space provided. For example:

First Tier	Up to 3,000 gallons	\$1.00 per 1,000 gallons
Second Tier	3,001 to 10,000 gallons	\$1.50 per 1,000 gallons
Third Tier	Over 10,000 gallons	\$2.50 per 1,000 gallons

If a flat rate, rather than a metered rate, is currently approved or proposed, enter the monthly rate in the space provided. A "flat rate" is a charge that is not based on gallons used. (For example, \$10.00 for all the water you can use.) If the Company currently has a flat rate and wishes to continue this rate, please contact Staff at (602) 542-4251. It is likely that Staff will **not** recommend the continuation of such a rate.

SERVICE CHARGES INSTRUCTIONS

Listed below are current and proposed service charges as appropriate. Commission Rules should be consulted in proposing new service charges. Please list current and proposed rates on Page 10, as well as any service charges not listed below that the Company proposes to charge.

Service Charge (Commission Rule)	Description
Service Line and Meter Installation Charge (R14-2-405.B)	A refundable Advance in Aid of Construction paid by a new customer to cover the cost of installing all customer piping up to the meter, as well as the cost of installing the meter. Propose a charge for every meter size listed on page 10.
Establishment (R14-2-403.D.1)	A charge covering the cost to establish a new account for a person requesting service when the utility needs only to install a meter for initial establishment, reestablishment, or reconnection.
Establishment (After Hours) (R14-2-403.D.2)	A charge covering the cost to establish a new account for a person requesting service during a period other than regular working hours.
Meter Test (R14-2-408.F)	A charge for testing the accuracy of a meter upon a customer's request. No charge will be levied if the meter is found to be in error by more than +/- three (3) percent.
Deposit (R14-2-403.B)	A refundable security deposit not exceeding two times the average residential class bill for residential customers, and not exceeding two and one-half times a non-residential customer's estimated maximum monthly bill.
Deposit Interest (R14-2-403.B.3)	Annual percentage interest rate applied to customer deposits. A six percent rate shall be applied if the company does not specify an interest rate with the Commission.
Re-establishment (R14-2-403.D.1)	A charge for service at the same location where the same customer had ordered a service disconnection within the preceding twelve-month period.
NSF Check (R14-2-409.F.1)	A fee for each instance where a customer tenders payment for utility service with an insufficient funds check.
Deferred Payment (R14-2-409.G.6)	Applicable monthly finance charges (interest rate) applied in a deferred payment agreement between the company and a customer.
Meter Re-read (R14-2-408.C.2)	Charge for a customer requested re-read of meter applicable when the original reading was found not to be in error.

UTILITY PLANT IN SERVICE INSTRUCTIONS

Instructions for Page 13

Begin the computation of utility plant in service by completing the worksheet on page 13 labeled Plant Additions and Retirements by Year. On this worksheet insert the dollar amount of plant additions and retirements for each account by year. Provide all additions and retirements for all years beginning with the Test Year in the prior rate case and ending with the test year used in this application. If there are more than two intervening years, make copies of page 13 to report all intervening years.

Instructions for Page 14

Upon completion of the above task, please add all additions on page 13 per plant account and enter the total on page 14 (Plant Summary), column B (Total Additions). Similarly, add all retirements by plant account and enter the total on page 14 column C (Total Retirements).

To assist you in the completion of page 14, please refer to the Commission Decision issued in the Company's prior rate case. That Decision established the value for the Original Cost of the plant and accumulated depreciation at the end of the prior test year. It may be necessary to refer to the associated Staff Report for individual account detail relating to the totals listed in the Decision.

Place the original cost of the plant in service per the prior decision in column A (Plant in Service per Prior Decision).

Complete column D (Test Year End Total), of page 14, for each plant account by adding column A and B and subtracting column C.

The totals calculated by plant must then be copied to page 15 (Utility Plant in Service), in the column titled Original Cost.

Instructions for Page 15

The Test Year End Totals by plant account on page 14 must be recorded to the Utility Plant in Service worksheet on page 15, in the column titled Original Cost. The second column (Accumulated Depreciation) will include the accumulated depreciation as stated in the Commission's prior Decision plus each year's depreciation expense since the prior Test Year. The third column, Original Cost Less Depreciation is calculated by subtracting Accumulated Depreciation from Original Cost for each account.

Note: For assistance with any of the above, please contact the Staff at 602-542-4251.

BILL COUNT INSTRUCTIONS

A quarterly Bill Count must be provided for each of the meter sizes the Company had in service during the Test Year. If you had more than one meter size in service, reproduce the forms on pages 27 through 31, inclusive, so that you will submit one set of Bill Count forms (i.e. one Bill Count for each quarter and a Bill Count Summary), for each meter size. An item such as a metered standpipe would be considered to be a different size meter, since it may have a different tariff rate than the other size meters.

A Bill Count Summary sheet is provided on page 31. Please note that each bill over 100,000 gallons should be shown separately. The number of bills in each line will be added to produce a total of all bills at the bottom of the page.

The first step in producing the Bill Count is to collect all monthly bills rendered for metered water sales during the 12 months of the Test Year. The collection of bills must include bills to part-time customers and to customers who are no longer on the system, but who were on the system for any part of the Test Year.

Only include bills for water sold during the Test Year. For example, assume that the Test Year runs from January 1st to December 31st (calendar year) and you normally bill on January 5th. The bill sent out at that time would cover December 1st through 31st usage of the prior year and should not be included. The first billing to be used for the year would be the February 5th billing and the last billing to be used would be the billing of January 5th of the succeeding year.

Sort the bills by each quarter, by meter size, so that a separate bill count is produced for each three-month period by meter size. On each quarterly Bill Count sheet, place a tally for each bill in the appropriate gallonage range. After tallying each bill, add the tallies in each gallonage range and report the tally totals in the column provided.

Note: For explanation of any of the above, please contact the Staff at 602-542-4251.

CUSTOMER NOTIFICATION

White Horse Ranch Owners Association, Inc. has applied to the Arizona Corporation Commission for an adjustment in rates. The current rates have been in effect since August 1, 2004. An increase in rates is necessary at this time due to increases in cost for various aspects of operating the water system. Most significantly, the Association's two operating wells have experienced severe declines in production capacity requiring substantial capital expenditures and causing substantially increases in purchased water expense. Based on the Association's un-audited Test Year results, White Horse Ranch Owner's Association realized an operating loss of \$46,351. The Association is requesting a revenue increase of \$15,000 or 21.7% of total revenues. Please see the attached pages 9 and 11 of the Association's application for the current and proposed rates.

The Application is available for inspection during regular business hours at the offices of the Commission in Phoenix at 1200 West Washington Street or online at <http://edocket/azcc.gov/edocket/> and at the offices of Helfinstine & Associates at 3033 Windsong Dr. #203, Prescott Valley, AZ 86314. Please be advised that the rates and charges ultimately approved by the Commission may be higher or lower than the rates and charges requested in the Application.

Customer input is an important part of the Commission's analysis of the requested adjustment and is a factor in determining whether a hearing will be conducted. Customers should bring to the Commission's attention any questions or concerns related to the Association's Application including service, billing procedures or other factors important in determining the reasonableness of charges. Customers may have the right to intervene in this matter. Customers wishing to communicate with the Commission, or request information on intervention in the proceeding, should contact the Commission's Consumer Services Section at 800-222-7000 (if located outside of Phoenix calling area) or 602-542-4251 in the Phoenix local calling area. Customers may also contact the Tucson Commission office by calling 800-535-0148 (if located outside of the Tucson local calling area) or 520-628-6555 in the Tucson local calling area.

Customers are advised that the Commission may act upon the Application without a hearing. Regardless of whether a formal hearing is held, customer comments submitted in writing will be placed in the office file, which the Commission reviews prior to making its final decision on the Application. RE Letter of Good Standing for White Horse Ranch Owners Association

Federal Employer Identification Number: 86-0932979

Dear Mr. Hinkle:

Your recent request for a Letter of Good Standing is denied because of the following:

Monthly Transaction Privilege, Use and Severance Tax Return (TPT-1) for Transaction Privilege Tax License number 20-060291-P not on file for August 2006.

Monthly Transaction Privilege, Use and Severance Tax Return (TPT-1) for Transaction Privilege Tax License number 20-060291-P not on file for May 2007.

A tax balance of \$113.38 is due. The taxes are due from a filing of Transaction Privilege Tax License number 20-060291-P filed December 2007.

Monthly Transaction Privilege, Use and Severance Tax Return (TPT-1) for Transaction Privilege Tax License number 20-060291-P not on file for \$10.83 December 2008.

Please resubmit a new Tax Clearance Application once the deficiencies have been cleared.

If you have any questions regarding your Arizona corporate income tax returns, you must contact the Corporate Income Tax Audit Section at 602-716-6397. If you have returns to submit, the returns must be sent to the Corporate Income Tax Audit Section, Attn: Certificate of Compliance, 1600 West Monroe Street, Phoenix, AZ 85007-2612.

STATEMENT REGARDING TITLE TO WATER UTILITY SYSTEM ASSETS

Decision No. 67103 requires White Horse Ranch Owners Association to file documentation clarifying its title to the water utility system assets, or if no such documentation is available, file a description of its efforts to obtain clear title.

White Horse Ranch Owners Association is not aware of any documentation clarifying its title to the water utility system assets. Shortly after issuance of Decision No. 67103, White Horse Ranch Owners Association severed all ties to the developer of White Horse Ranch. Since that time, the White Horse Ranch Owners Association has been under the control of a Board of Directors elected from the homeowners within the development. The Board is not aware of any claim by the developer or any other entity to the water utility system assets. The Board believes that title to the water utility system assets rests solely with the White Horse Ranch Owners Association and is uncontested at this time. The Board believes that not further attention or action is required to clarify the White Horse Ranch Owners Association's ownership of the water utility assets.

MONITORING ASSISTANCE PROGRAM
ANNUAL SAMPLING FEE INVOICE

Pursuant to A.R.S. § 49-113, interest will be charged if full payment is not received by the specified due date. If you dispute the amount listed, please contact ADEQ as soon as possible. To reduce interest costs on an unpaid invoice, you may remit an amount that you believe is not in dispute. However, if nonpayment is due to wilful neglect, you may suffer an additional five percent penalty of up to twenty-five percent of the amount due for each month or fraction of a month the amount is past due.

If you have any questions about your invoice, contact W. Scott Steinhagen at (602) 771-4445 or toll-free within Arizona at (800) 234-5677, extension 771-4445.

Pursuant to A.R.S. § 49-360 F and A.A.C. R18-4-224 through R18-4-226, "The director shall establish fees for the monitoring assistance program to be collected from all public water systems..."

APS ASKS FOR YOUR HELP THIS WINTER

Please help us to serve you safely this winter. Snow and ice can create a hazard and impede our ability to safely access and read your meter. Hidden hazards beneath the snow can also present a safety hazard. So, please clear snow and ice from around your gate, your meter cabinet doors, and along the pathway leading to your meter. Thank you for helping us to work safely.

Important News About Your Electric Bill

The Power Supply Adjustment (PSA) is subject to annual adjustment for increases in the cost of fuel used to generate electricity and purchased power. The PSA has increased by \$.001338/kWh; therefore, this month's bill reflects that increase. The change will increase average monthly general service bills by \$11.59 based on monthly energy consumption of 8,663 kilowatt hours. Individual bill impacts will vary with your actual energy usage and rate. For additional information or questions on the PSA increase you can visit the aps.com Web site or call (800) 253-9407 or (602) 371-6767 (in metro Phoenix).
